

A COST-EFFECTIVE WAY TO KEEP YOUR HOME COSY ALL YEAR ROUND

What is it?

Loft insulation is a thick layer of material fitted in your roof space that prevents heat escaping from your home. It keeps warmth inside for longer and helps reduce energy bills.

Why it's good for you

Keeps your home warm

Stops heat escaping, so rooms feel more comfortable.

Reduces energy bills

Less heat lost means your heating doesn't have to work as hard.

Good for the environment

Uses less energy and reduces carbon emissions.

Helps prevent damp and condensation

Maintains a more even temperature in your home.

Low maintenance

Once installed, you don't need to do anything to maintain it.

WHAT YOU'LL NOTICE DAY TO DAY

- Your home stays warmer for longer
- Your heating system won't need to work as hard to maintain a comfortable temperature.
- Reduced heat loss can help eliminate draughty or cold feelings in upstairs rooms.
- When combined with good ventilation, insulation can help create a healthier environment.
- By reducing the amount of heat escaping through the roof, your home can become more energy efficient - leading to the possibility of reduced bills.

TOP TIPS FOR LOOKING AFTER YOUR LOFT

- Check your loft insulation is not compressed or damaged
- Do not store belongings on top of the loft insulation
- Ensure any loft access is safe and insulation isn't disturbed
